Whether it's ultra-modern injection molding machines and process technology, or high-tech automation and auxiliary equipment – it's all WITTMANN.

Visit our exhibition stand at K 2025, from **8 to 15 October**, and discover our latest technologies.

Under the motto of "Smart Choices – Smart Savings", the WITTMANN Group will demonstrate to its visitors how smart choices produce smart savings – saving valuable resources as well as the pocket book. As the Group's machine manufacturer, WITTMANN BATTENFELD will lead trade visitors through the program of injection molding machines and other equipment.
